Redwood Hall Revelry

For parties of 50 people, book a Redwood Hall Revelry party! Receive all-day admission for all your guests and two hours in a private party room with a gorgeous view of the Bay.

Classroom Celebration

For smaller parties of 24 or fewer people, the Classroom Celebration is for you! Enjoy two hours in an intimate room with a private outdoor patio, and let your guests explore CuriOdyssey's exhibits and animals before and after your party.

Stair Step Shindig

For gatherings of 49 or fewer people, the Stair Step Shindig combines our Theatre, Classroom, and Patio for the ultimate concourse junction! Enjoy two hours of dedicated party space and all-day admission with CuriOdyssey's animals and interactive science exhibits.

Build-A-Birthday

Larger parties of 50 or more people or for more than two hours can create their own party with our Build-A-Birthday option. Choose how many people and for how long, and our staff will put together a pricing that best suits your party needs.

Exploration Celebration

One educational program (30-45 minutes long) led by a CuriOdyssey science educator. This option is only available on Saturdays from October through May, and for parties of 24 people or fewer. Choose from one of the following:

- *Wild Survival Animal Presentation:* Get up close to some of CuriOdyssey's Animal Ambassadors with a private, personalized live animal presentation. Three animals will make an appearance for your birthday celebration, and guests will be able to observe, touch and learn about adaptations that help these creatures survive in the wild. Feathers, shed, skulls and other bio-facts will also be available to touch, examine and observe. Appropriate for ages three years and up.
- *Marvelous Marble Roller Coasters:* Using flexible foam track, tape and marbles, kids can build a roller coaster worthy of any theme park. Incorporate loop-do-loops, corkscrews and vertical drops to send the marble on its way. This is a great activity on the physics of energy where kids can work individually or in groups. Add this science activity to your party and let gravity take over as the marbles go careening into curves, twists, and turns. Marvelous Marble Roller Coasters has the "potential energy" to keep the kids engaged the whole time. Appropriate for ages 5 years and up.
- *Build It Up Birthday:* Does your child like to construct things? We have the perfect activity for you to add to your birthday. Choose to build a sturdy structure, wind-powered car, or air glider in this design-and-build challenge workshop. Led by a CuriOdyssey science educator, these activities can be tailored to be more challenging for an advanced group. Parents and adult guests can even take part! Perfect for the kid who is always "tinkering." Appropriate for ages seven years and older.
