

Bay Area FrogWatch at CuriOdyssey

Join CuriOdyssey in a citizen science project to monitor local frogs and toads!

What is FrogWatch?

- Bay Area FrogWatch is the local chapter of FrogWatch USA, a national program which has been monitoring frogs and toads for over 10 years.
- Bay Area FrogWatch depends on volunteers to collect and report information about local wetlands and local frog and toad populations.

**BUILDING THE MINDS
OF TOMORROW TODAY**

CuriOdyssey
AT COYOTE POINT

Why Monitor Frogs and Toads?

- They are sensitive to changes in their environment and are indicators of problems that can affect human health.
- They benefit humans by eating insects that can be pests and transmit diseases
- Frog and toad populations all over the world are in decline, and it is essential that we understand the scope, scale, and cause of these declines.

You can help!

- You do not have to be an expert to make an important contribution!
- Volunteers have the opportunity to participate in citizen science and develop a closer relationship with the natural environment.
- Volunteer time commitment is just 2 days a month.

2017 Training:

Day: Saturday, Feb. 18th

Time: 6-8:30pm

Location: CuriOdyssey in
San Mateo

For more information or to sign up for the training, please contact Megan: mhankins@curiodyssey.org
