

Let's go to Camp CuriOdyssey!

Summer 2020

This summer, I am going to Camp CuriOdyssey!

- There are so many camps to choose from. I can choose a camp based on things that I like! In CuriOdyssey camps I can:
 - Build machines, create art, explore nature, discover cool things, learn about animals, go “behind the scenes” of CuriOdyssey and so much more!
- All kids can go to camp, no matter their ability!
- I will be in camp with other kids my age. I’ll probably even make new friends!
- Camp is Monday-Friday and every day will bring new opportunities.

My mornings at Camp CuriOdyssey

- My caregiver (mom, dad, grandma, grandpa, etc.) will park in the CuriOdyssey parking lot and walk me through the front gate, all the way to where my camp is.
 - Don't worry, there will be staff there to show us the way!
- When we get there, they will sign me in at a table and I will put my stuff on a hook or in a cubby.
- There are always activities out for me to do right away, so I say “see you later” to mom or dad and get to work!
 - I will play until all the other kids are checked in and it is 9:00 am!

Welcome circle!

- Every morning after everyone is checked in by 9:00 am, we make a big welcome circle.
 - The first day of camp we go over rules for camp that help keep me safe!
 - Everyday at circle time we go over the schedule for the day. It has pictures so that I can follow a little easier.
 - We can look at it whenever we want to know what happens next!
- Sometimes sitting and listening for a long time is hard, so the teachers give us brain breaks.

My General Camp Schedule

- **Check-in/free play**
 - **Circle time**
 - **Activity**
 - **Break**
 - **Activity**
 - **Lunch**
 - **Activity**
 - **Break**
 - **Activity**
 - **Journal/Sharings**
 - **Parent pick-up**

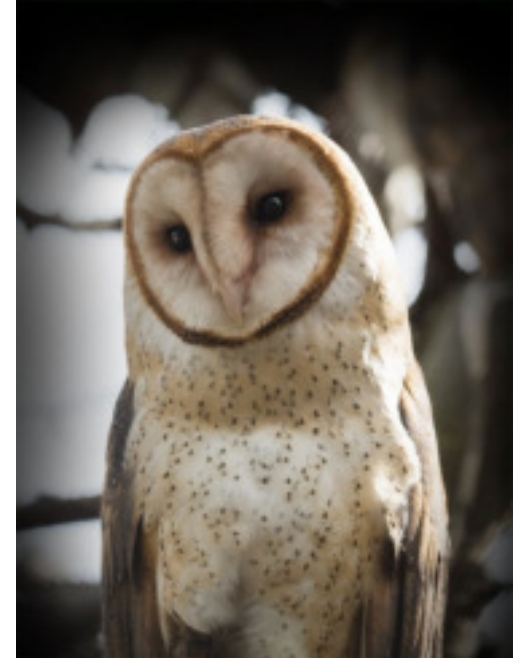

Activity time!

- **After circle time comes activity time!**
 - **Activity time is different for every camp, but they all have one thing in common...FUN!**
 - **Activities have to do with the theme of the camp you are in.**
 - **For example: activity time in Gadgets and Gizmos may mean that we are making something.**
 - **At Camp CuriOdyssey I am given space to explore, discover, and create on my own and at my own pace.**
 - **Its important to listen to camp staff during activity time because they are there to help me learn and keep me safe.**

Break time!

- Sometimes, my brain needs a break from all of the working.
- We can take breaks whenever we need them on our own, all I have to do is ask!
- We also take breaks as a group to eat snack, go to the bathroom, go on walks or get the wiggles out.
- Breaks help my brain get ready to learn again!

Lunch time!

- Every camp has an area where we eat lunch. Sometimes, it's even with other camps so I have the chance to make even more friends!
- A very important safety guideline is that we should only eat our own food during lunch time. We don't want anyone to get sick!
- Lunch time is great for resting my brain. I will find a spot, get my lunch out and eat while chatting with a friend.

More activities!

- We most of the day doing activities. This could mean exploring the outdoors, doing science experiments, learning about animals or creating something!
- I learn so much just in one day!

Journal & Sharing Time

- At the end of every day of camp, we can write down things we learned or things we thought were cool in our CuriOdyssey journals.
 - If we don't want to write, we can share aloud to a friend or camp leader.
- This is a great time for us to reflect on our awesome day at Camp CuriOdyssey.

Pick-up time!

- Parents park and walk into our camp areas to sign us out at the end of the day.
- It's time to go home!
- See you later, Camp CuriOdyssey!
